Future Energy Declaration

A Roadmap for Clean, Secure and
Equitable Energy Transition

Key Messages | June 2026

“
Let the light of electricity illuminate the path
of sustainable development.”

REGIONAL & GLOBAL
ENERGY INTERCONNECTION

AN INITIATIVE OF THE CLEAN ENERGY MINISTERIAL

Global
cooperation

Clean
energy

Energy
security

Inclusive
prosperity

Global Energy Interconnection
Development and Cooperation Organization
全球能源互联网发展合作组织

Why Act Now?

The next decade will be decisive for the global clean energy transition.

3×

Renewable capacity
by 2030

4,000 GW

Current deployment gap

700 million

People without electricity

The next decade will be decisive.

Global Energy Interconnection
Development and Cooperation Organization

Three Action Pillars

The original declaration covers 10 thematic areas, summarized here into three action pillars.

Pillar 1

Scale renewables
and grids

Pillar 2

Build smart and
resilient systems

Pillar 3

Ensure a just and
cooperative transition

Global
cooperation

Clean
energy

Energy
security

Inclusive
prosperity

Global Energy Interconnection

Pillar 1A: Scale Renewables

Regional renewable energy targets by 2030

3×

Europe / North America /
Oceania

4–5×

Africa / South America

2–3×

Asia

Different regions, shared responsibility.

Global Energy Interconnection
Development and Cooperation Organization
全球能源互联网发展合作组织

Pillar 1B: Strengthen Grids & Storage

Fix the grid bottleneck and scale supporting investment.

2.5x

Clean energy

2x

Grids

4x

Energy storage

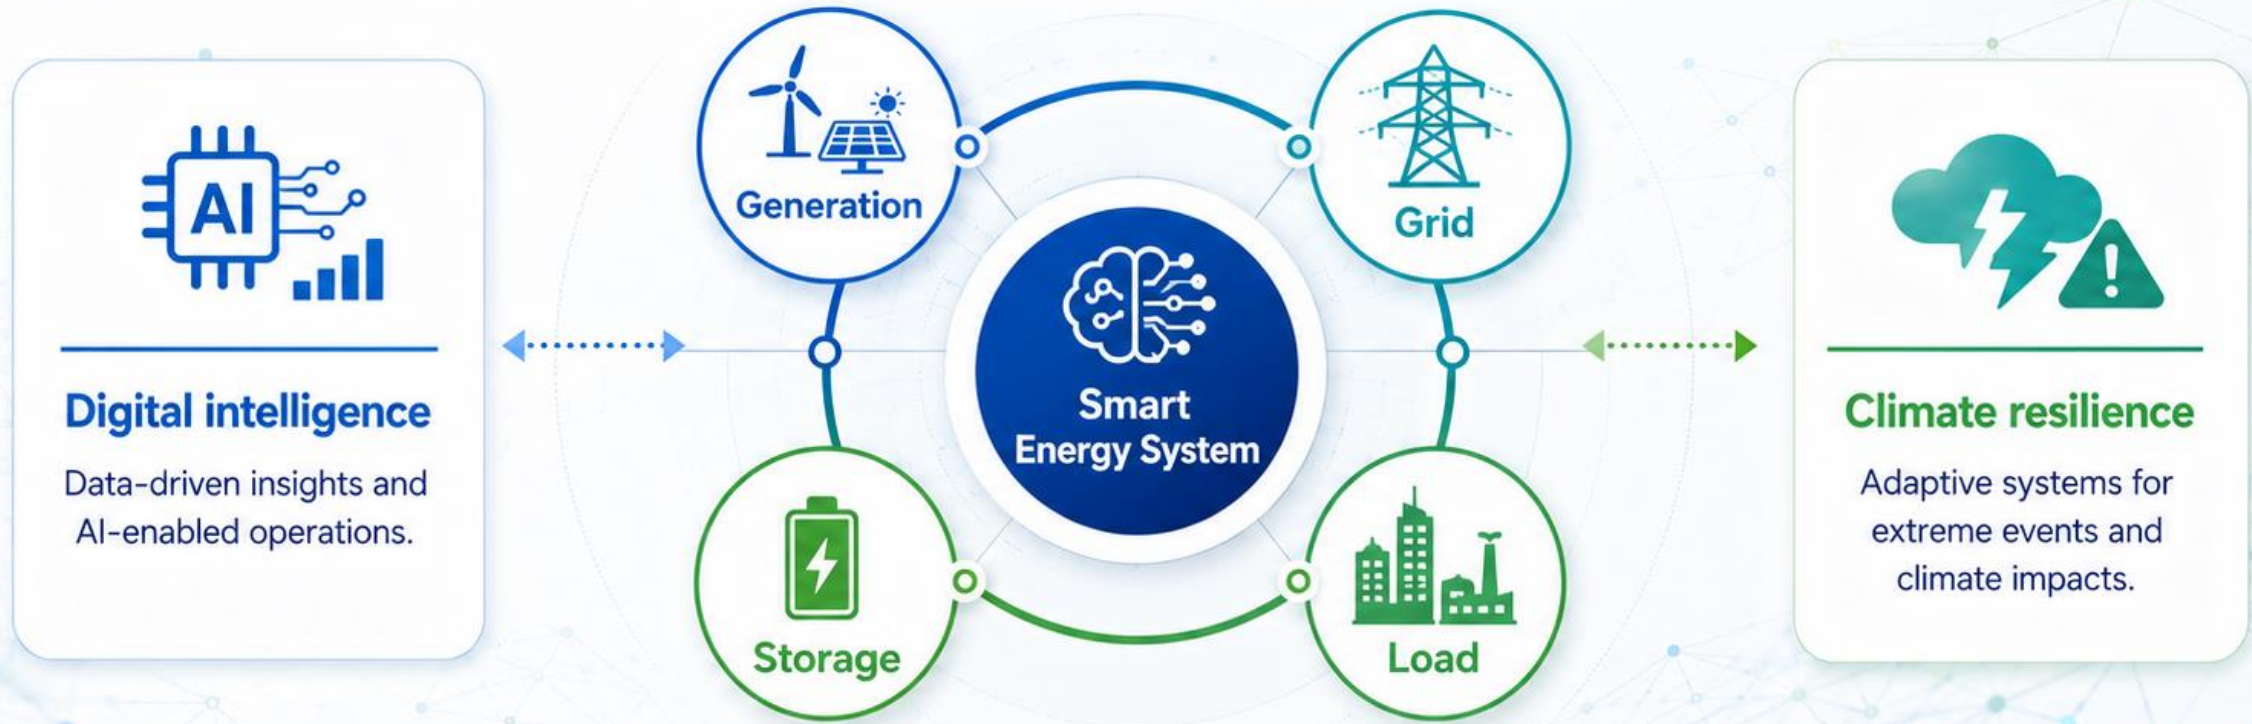

No energy transition without grid transition.

Global Energy Interconnection
Development and Cooperation Organization
全球能源互联网发展合作组织

Pillar 2: Smart & Resilient Systems

From single-point breakthroughs to system-wide resilience.

A clean energy system must also be a resilient energy system.

Global Energy Interconnection
Development and Cooperation Organization
全球能源互联网发展合作组织

Pillar 3: Just & Cooperative Transition

Leave no one behind and unlock economic opportunity.

1. Leave no one behind

2035 —
Electricity and clean
cooking for all

15 million+ —
Clean energy jobs
by 2030

Just transition —
Support workers
in transition

2. Opportunity, not burden

\$97 trillion —
Cumulative energy
investment by 2050

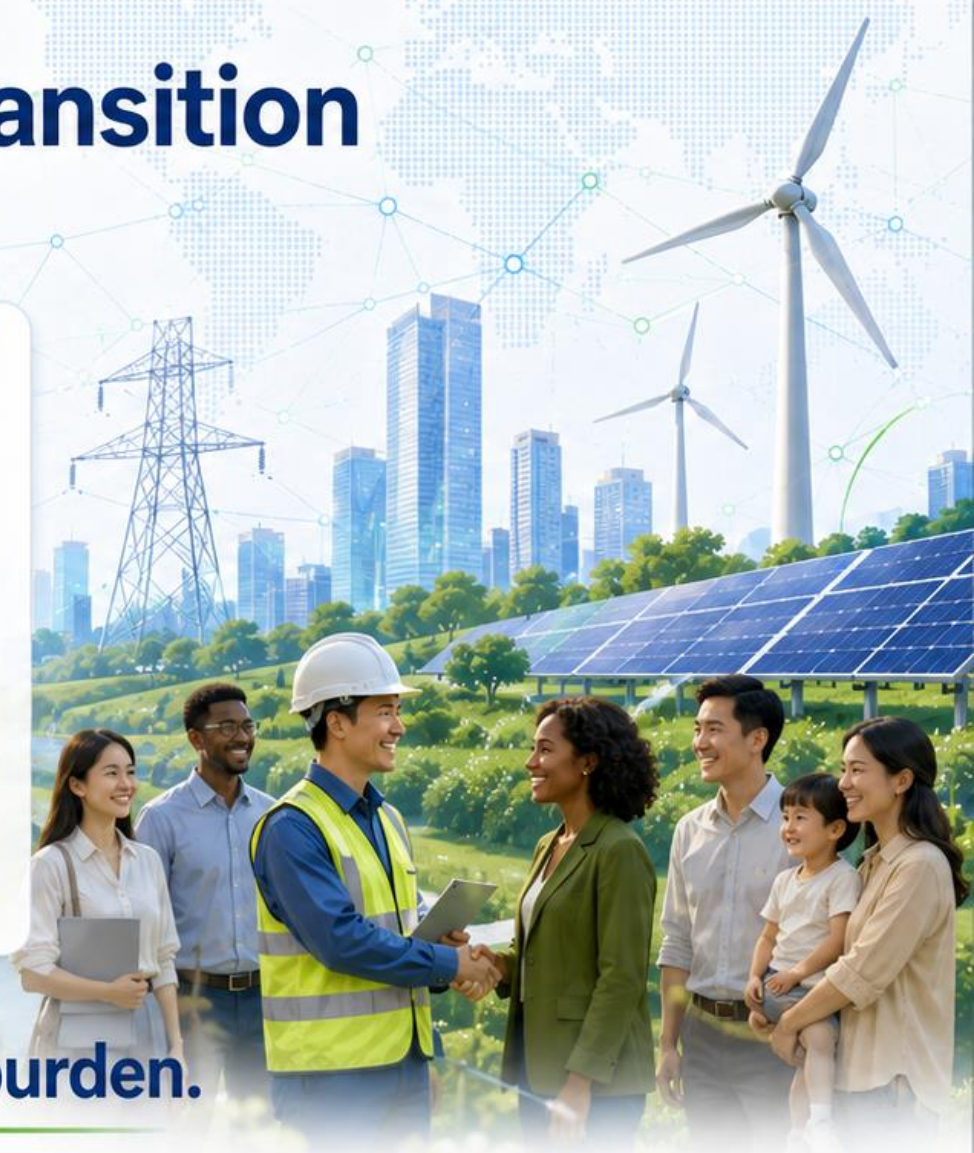

+0.5 pp —
Annual global
GDP boost

Strengthen global cooperation and
reject green barriers and protectionism.

A massive economic opportunity, not a burden.

Call to Action

Is your country, city or company ready to act?

Governments

Raise NDC
ambition and
invest in grids

Businesses

Innovate and
join green
value chains

Financial institutions

Support clean
energy projects in
developing countries

All of us

Ensure no one
is left behind

The next ten years start now.

Global Energy Interconnection
Development and Cooperation Organization
全球能源互联网发展合作组织

Thank You

Let's act for a clean, secure and equitable energy future.

Global
cooperation

Clean
energy

Energy
security
