

Update - Spring 2017

Zinglensen Named as Head of the New Clean Energy Ministerial Secretariat at the International Energy Agency

Christian Zinglensen has been named the first Head of Secretariat for the new Clean Energy Ministerial (CEM) Secretariat at the International Energy Agency. Formerly the Deputy Permanent Secretary at the Danish Ministry of Energy, Utilities, and Climate, he assumed the new position on 1 February and is now leading the CEM Secretariat to support an accelerated global transition to modern and clean energy sources. Delegates Prepare For the Eighth

Industry Commits to Development

Clean Energy Ministerial (CEM8)

CEM member country delegations met in late February to review progress; shape the agenda, priorities, and desired outcomes for CEM8; and discuss strategic topics such as expanding CEM leadership and partnerships.

Review meeting highlights.

Information about CEM8 is available at ***cleanenergyministerial.org/CEM8***.

of Super-Efficient Cooling Systems

As a result of a CEM workshop led by TERI and EESL, several leading manufacturers pledged their support to develop and deploy super-efficient cooling systems. ***Read about these commitments.***
