The Equal by 30 Campaign

Campaign associated with the Clean Energy Education and Empowerment (C3E) Initiative

Goals

Equal by 30 is a public commitment by public and private sector organisations to work towards equal pay, equal leadership and equal opportunities for women in the clean energy sector by 2030.

Equal by 30 asks organisations, companies and governments to endorse principles, then take concrete action to accelerate the participation of women in the clean energy sector, and close the gender gap.

Rationale for being included in the CEM

The Equal by 30 Campaign was launched on May 24, at the Clean Energy Ministerial (CEM) in Copenhagen. It operates under the banner of the Clean Energy Education and Empowerment (C3E) Initiative, which works to advance the participation of women in the clean energy transition, and close the gender gap.

This campaign are bringing together leadership from across the energy sector to galvanise action, and help all players – from private sector companies to governments at all levels – take action together.
